# Fimet una storia di passione, ricerca e qualità italiana.

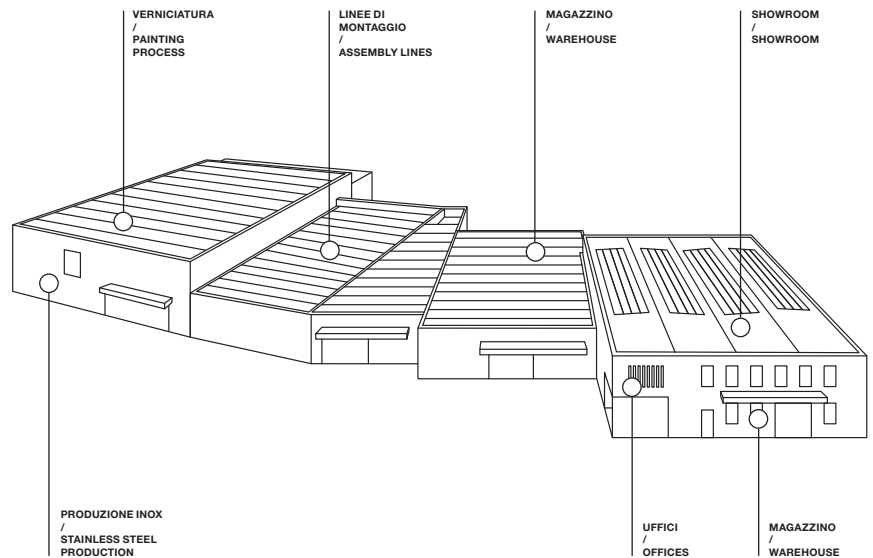

A story of  
passion,  
research and  
Italian quality.

<sup>IT</sup> La nostra realtà nasce nel 1986, quando Vittore Bianchi fonda la Fimet, sulla base di una già consolidata esperienza imprenditoriale, dedicandosi a un elemento protagonista dell'arredo e dell'interior design: la maniglia. Da allora siamo cresciuti, restando sempre fedeli al nostro territorio: la Valle Sabbia, in provincia di Brescia, storico distretto produttivo nel settore delle lavorazioni metalliche. Con il trascorrere del tempo, Vittore è stato affiancato dai figli Luca e Marica nella gestione di un'azienda che si è evoluta non solo nelle dimensioni e nelle tecnologie, ma anche nella flessibilità produttiva e nella cultura del progetto. Oggi ci proponiamo come un partner capace di interpretare le più diverse esigenze funzionali e stilistiche dei nostri interlocutori, unendo una visione internazionale con un'eccellenza qualitativa tipicamente italiana.

# About us

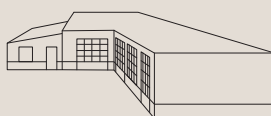

<sup>EN</sup> Our company was first established in 1986, when Vittore Bianchi founded Fimet, drawing on his long-established entrepreneurial experience to focus on an essential component of furniture and interior design: handles. We have grown since, and stayed loyal to our land all along: Valle Sabbia, in the province of Brescia, a historic production district in the metalworking industry. Over time, Vittore has been supported by his children Luca and Marica in managing a company that has evolved not only in size and technology, but also in terms of production flexibility and design culture. Fimet partners with its customers to meet their most diverse functional and stylistic requirements, combining an international vision with typically Italian top-quality standards.

1986

**Fimet viene fondata a Vestone, in Valle Sabbia.**

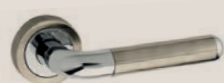

Fimet was founded in Vestone, in the Valle Sabbia area.

1998

**La maniglia Club è il primo modello esportato con successo sul mercato tedesco.**

The Club handle is the first model to be successfully exported to the German market.

1999

**Viene inaugurata la seconda sede aziendale a Merlaro Vestone.**

Opening of a second facility in Merlaro Vestone.

2010

**La maniglia Michelle apre a Fimet le porte del mercato di alta gamma.**

The Michelle handle opens the door to the high-end market.

2015

**Fimet inizia a collaborare con designer italiani, per rivolgersi a nuove fasce di mercato.**

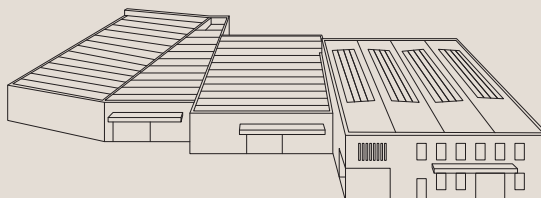

Fimet begins to collaborate with Italian designers to target new market segments.

# About our history

## 2017

**Fimet si trasferisce in una sede più ampia a Casto, sempre in Valle Sabbia.**

Fimet moves its headquarters to a larger location in Casto, still in the Valle Sabbia area.

## 2018

**Viene introdotta una nuova gamma di prodotti in acciaio inox, standard e su misura.**

Launch of a range of standard and made-to-measure stainless-steel products.

## 2020

**La maniglia Punto, disegnata da Robby Cantarutti, vince il Red Hot Design Award.**

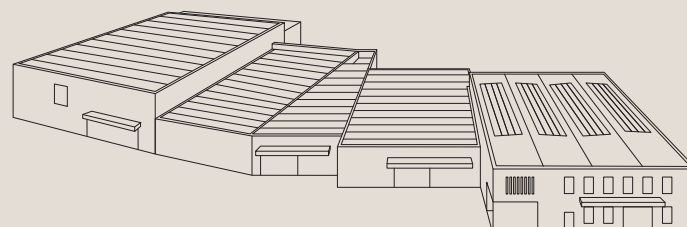

The Punto handle by Robby Cantarutti wins the Red Dot Design Award.

## 2021

**Fimet amplia il suo reparto verniciatura a polvere ecosostenibile.**

Fimet expands its eco-friendly powder coating department.

# La nostra filosofia

Our target

IT Ogni giorno ci mettiamo al lavoro con un obiettivo preciso: realizzare delle maniglie completamente in sintonia con le esigenze funzionali, qualitative e stilistiche dei nostri clienti. Per questo seguiamo direttamente tutte le fasi del processo: selezione dei materiali, progettazione e prototipazione, stampaggio, lavorazioni, finitura. Dalle maniglie classiche e contemporanee in ottone, lega di zinco e acciaio inox, ai maniglioni e accessori in acciaio inox e leghe in alluminio, abbiamo sviluppato una gamma di soluzioni completa, personalizzabile e in continua evoluzione. Esprimiamo i più alti livelli di professionalità e flessibilità anche nei nostri servizi commerciali: un fattore essenziale per il nostro successo sul mercato e soprattutto per la soddisfazione dei nostri clienti.

Fimet è da sempre specializzata nella produzione di maniglie.

Fimet specialises in the production of handles.

# About our values

<sup>EN</sup> Every day we start working with a specific goal in mind: to create handles that are fully in line with our customers' requirements for functionality, quality and style. That's why we directly oversee every single stage of the production process: material selection, design and prototyping, moulding, manufacturing and finishing. We have developed a comprehensive range of customisable and constantly evolving solutions, encompassing a variety of styles and materials, such as classic and contemporary handles made from brass, zinc alloy and stainless steel, as well as pull handles and accessories crafted from stainless steel and aluminium alloys. The highest standards of expertise and flexibility are also reflected in our sales services : a key factor for our success in the market, while guaranteeing full customer satisfaction.

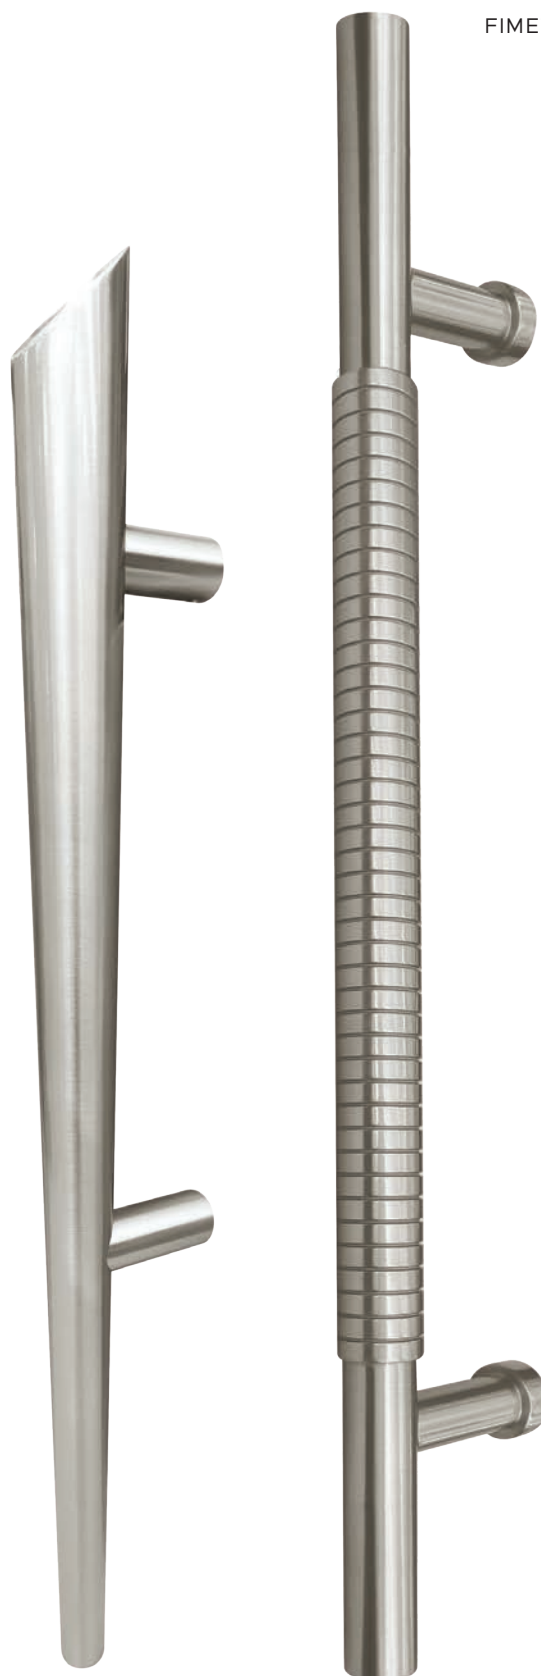

La personalizzazione  
è uno dei punti di  
forza di Fimet.  
Customisation is one  
of Fimet's strengths.

# Prodotti ready made, custom, on demand.

**Ready-made,  
customised and  
on demand  
products.**

<sup>IT</sup> Gestiamo l'intero processo produttivo nel nostro stabilimento, unendo lavorazioni artigianali e tecnologie di precisione, come nella migliore tradizione del Made In Italy. Questo ci consente di avere un totale controllo sulla qualità e di offrire un elevato livello di personalizzazione dei prodotti presenti nelle nostre collezioni, sempre garantendo la massima puntualità nelle consegne. Il nostro ufficio tecnico è inoltre a disposizione per sviluppare delle soluzioni su progetto del cliente: dallo studio di fattibilità, alla realizzazione dello stampo, alla produzione in serie di maniglie completamente originali e uniche.

<sup>EN</sup> We manage the entire production process in our factory, combining craftsmanship and precision technologies in line with the best Italian manufacturing tradition. This allows us to have complete control over quality and offer a high level of product customisation in our collections, while always ensuring timely deliveries. Our technical department is also available to develop solutions based on our customers' designs: from feasibility studies to mould construction and mass production of utterly original and unique handles.

# About our nature

Il panorama che ci circonda, la Valle Sabbia, con le sue montagne incontaminate e le sue antiche tradizioni, ci ispira ad abbracciare un comportamento etico fondato sul rispetto per la natura e le persone. Ecco perché abbiamo scelto di non utilizzare materiali e processi nocivi, in sintonia con le linee guida europee sulla sostenibilità. In particolare, il nostro reparto di verniciatura ha un sistema di lavaggio ad acqua che consente di risparmiare energia e utilizza vernici a polveri atossiche che non contaminano il suolo e l'atmosfera: un contributo concreto alla qualità dell'ambiente e della vita di tutti.

The Valle Sabbia landscape surrounding us with its pristine mountains and ancient traditions, inspires us to embrace an ethical behaviour based on respect for nature and people. That is why we chose not to use harmful products and processes, in line with European sustainability guidelines. In particular, our painting department has a water washing system that saves energy and uses non-toxic powder paints that do not contaminate the soil and the atmosphere: a tangible contribution to the quality of the environment and of human life.

## Guardiamo all'ambiente e al futuro

**Ready-made, customised and on demand  
We care for the environment and look to the future and products.**

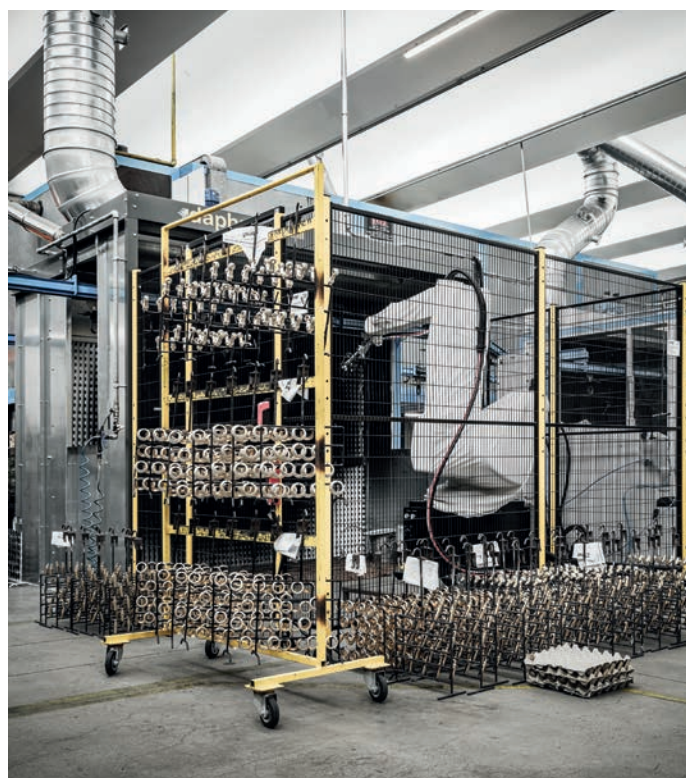

Lo stabilimento Fimet si affaccia direttamente sulla natura.

The Fimet plant overlooks a natural landscape.

# Eco-gestione del ciclo produttivo

Ciclo produttivo che rispetta l'ambiente:  
 1 / Utilizzo di vernici prive di VOCs  
 2 / Efficienza energetica dell'impianto di verniciatura  
 3 / Recupero e riutilizzo delle vernici a polvere

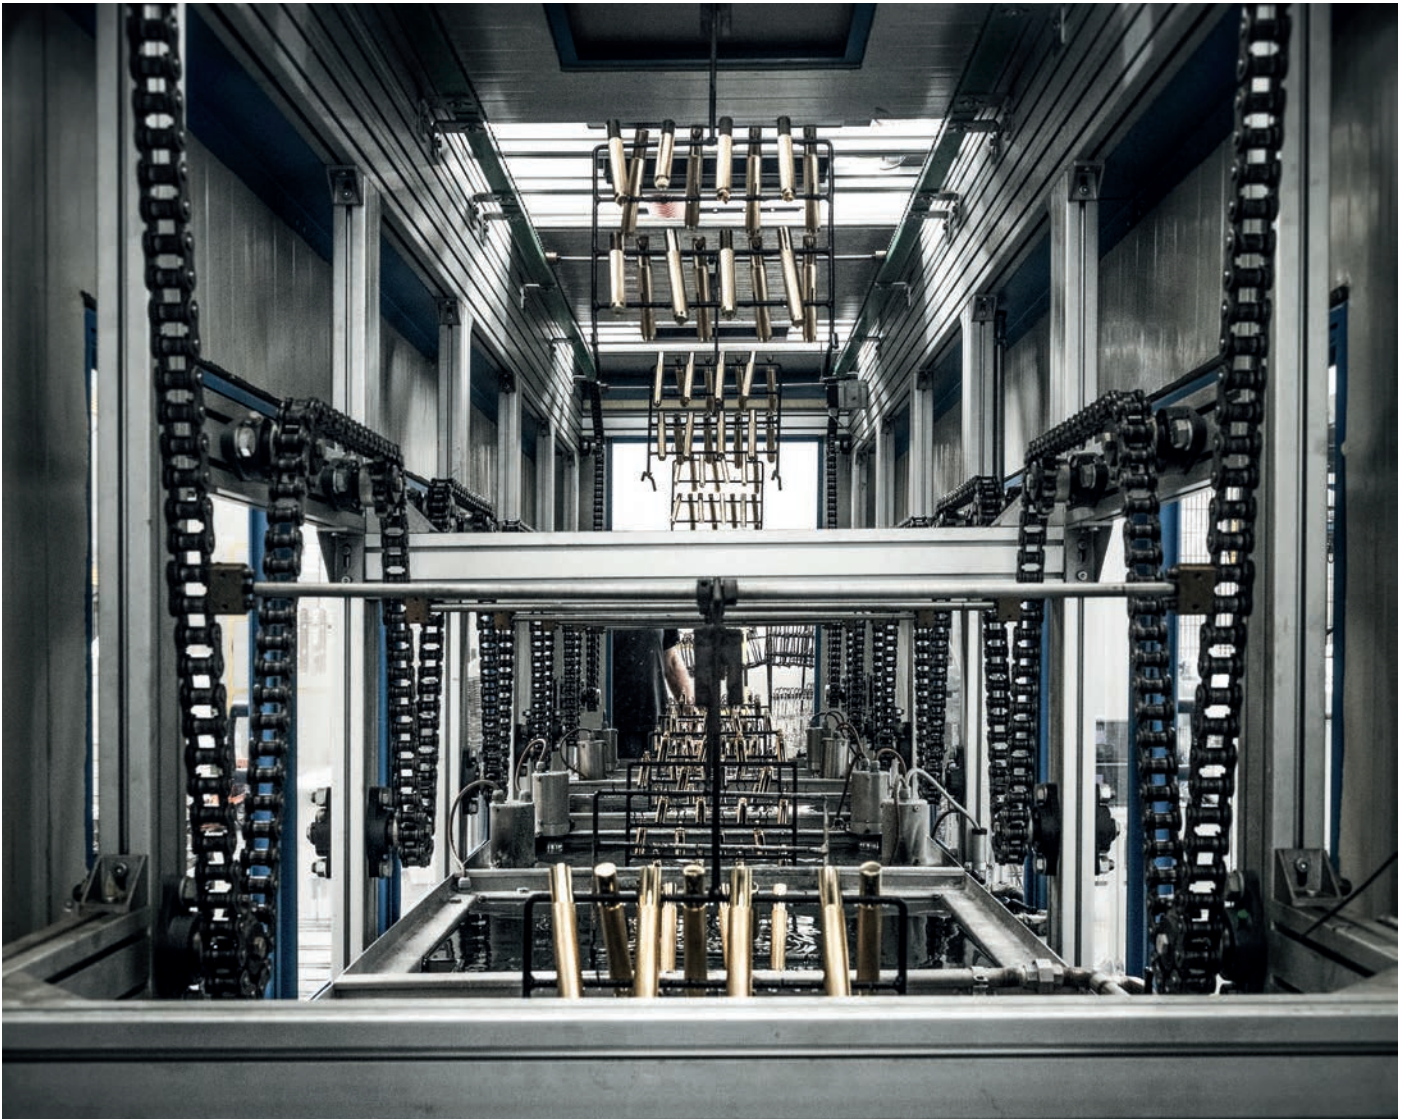

Impianto di verniciatura automatizzato. Automated painting system.

# Eco-management of the production cycle

Environmentally friendly  
production cycle:  
1 / Use of VOC-free paints  
2 / Energy efficiency of  
the painting system  
3 / Recovery and re-use  
of powder paints

Lavaggio  
ad acqua  
ecosostenibile.

Sustainable  
water washing  
system.

#### CLAUDIO DI PALMA

<sup>IT</sup> Consegue la Laurea Magistrale in Disegno Industriale presso l'Università della Campania, trascorrendo un anno a Bruxelles come studente Erasmus presso l'ENSAC La Cambre, scuola di design fondata nel 1926 da Henry van de Velde. Dal 2019 lavora ad Amsterdam come designer indipendente. Ha sviluppato diversi progetti per aziende italiane e internazionali, esponendo prodotti in numerose mostre.

<sup>EN</sup> He holds a Master's degree in Industrial Design from the University of Campania and spent a year in Brussels as an Erasmus student at ENSAC La Cambre, the design school founded by Henry van de Velde in 1926. He has been working as an independent designer in Amsterdam since 2019. He has worked on a number of projects for Italian and international companies and showcased his products at many exhibitions.

#### ENRICO GALLO

<sup>IT</sup> Nato nel basso Polesine, dopo la maturità scientifica si iscrive alla Scuola Italiana Design di Padova dove conosce a pieno la progettazione del prodotto industriale. Durante e dopo il Master sviluppa una serie di componenti per mobili, quali pomoli e maniglie. Attualmente freeLancer lavora, tra le altre, per varie aziende legate alla lavorazione dei metalli.

<sup>EN</sup> He was born in the Polesine region, near Rovigo. After graduating from scientific high school, he enrolled at Scuola Italiana Design in Padua, where he acquired in-depth knowledge of industrial product design. During and after his master's course he developed a number of furniture components such as knobs and handles. He currently works as a freelancer for various metalworking companies, among others.

#### ROBBY CANTARUTTI

<sup>IT</sup> Lo studio Robby Cantarutti and partners fondato da Robby Cantarutti e Francesca Petricich ( marito e moglie) nasce nel 1995 in provincia di Udine. Lo studio delle diverse culture dell'abitare, i cambiamenti del vivere quotidiano, l'analisi dei comportamenti delle varie culture è lo stimolo per la creazione dei loro progetti.

<sup>EN</sup> The Robby Cantarutti and Partners studio was founded by Robby Cantarutti and his wife Francesca Petricich near Udine in 1995. The study of different home cultures and ways of life, the changes affecting daily living, and the analysis of different cultural behaviours is the inspiration behind their projects.

#### FRANCESCO POLARE

<sup>IT</sup> Designer laureato al Politecnico di Milano, da sempre ha assecondato la sua curiosità cimentandosi in differenti settori e convogliando nei suoi progetti le varie esperienze maturate. Libero professionista, vive e lavora a Milano.

<sup>EN</sup> As a graduate designer from the Polytechnic University of Milan, he has always indulged his spirit of inquiry by delving into different sectors and incorporating his various experiences into his projects. He lives and works as a freelancer in Milan.

# About our designer

<sup>IT</sup> Lungo il nostro percorso evolutivo, abbiamo incontrato dei designer italiani ed europei che condividono i nostri valori e arricchiscono le nostre collezioni con la loro creatività e cultura del progetto, permettendoci di sviluppare e realizzare dei prodotti sempre più affascinanti e innovativi.

<sup>EN</sup> Throughout our evolutionary journey, we have met Italian and European designers who share our values and add to our collections through their creativity and design culture. This allows us to develop and create ever more fascinating and innovative products.

**PETR NOVAGUE**

<sup>IT</sup> Si è laureato all'Accademia di Arti, Architettura e Design di Praga. Ha inoltre studiato design industriale presso l'Università di Duisburg Essen in Germania e design dei trasporti presso l'Accademia di Belle Arti e Design di Bratislava. Ha progettato oltre 50 prototipi di vari prodotti: dalla penna o il primissimo smartphone ceco Verzo ad auto e yacht.

<sup>EN</sup> He graduated from the Academy of Arts, Architecture and Design in Prague. He also studied industrial design at the University of Duisburg Essen, Germany, and transport design at the Academy of Fine Arts and Design in Bratislava. He has designed over 50 prototypes for various products, ranging from pens to the very first Czech Verzo smartphone, as well as cars and yachts.

**NICOLA NOVELLETTO**

<sup>IT</sup> Nicola Novelletto, classe 61, vive e lavora a Milano. Ha affiancato all'attività professionale quella didattica presso il Politecnico di Milano e istituti privati. Dal 1993 opera in diversi settori: nautica, oggettistica, gioielleria e orologeria, elettromedicali, rubinetterie, attrezzature sportive, casalinghi, complementi d'arredo, macchinari industriali, packaging e grafica.

<sup>EN</sup> Born in 1961, Nicola Novelletto lives and works in Milan. In addition to his professional activity, he has also taught at the Polytechnic University of Milan and in private schools. Since 1993 he has been working in various sectors, such as the boating industry, home accessories, jewellery and watchmaking, electromedical devices, taps and fittings, sports equipment, household goods, furnishings, industrial machinery, packaging and graphic design.

**FABRIZIO GANDI**

<sup>IT</sup> Nasce a Casto (BS) nel 1953. Si definisce pittore, scultore, designer. Si diploma alla scuola di Brera a Milano nel 1984. La sua vena artistica classica – barocca ci ha aiutato a forgiare idee e perfezionare modelli. Ha lavorato per molte aziende del settore dell'ottone e dell'alluminio creando modelli unici nel loro genere raccogliendo consensi e plausi da tutto il mondo.

<sup>EN</sup> Born in Casto, Brescia in 1953. He defines himself as a painter, sculptor and designer. He graduated in 1984 from Brera Academy in Milan. His classical-baroque artistic flair has helped us to shape ideas and perfect models. He has worked for many companies in the brass and aluminium industry, creating unique products and garnering worldwide acclaim and praise.

# Our world

<sup>IT</sup> La qualità, l'innovazione e il design Fimet sono apprezzati in oltre 50 paesi nel mondo. Un traguardo che ci rende orgogliosi e ci spinge ad aprire nuove prospettive nelle soluzioni e nei servizi, dando sempre il meglio di noi stessi: in tutto quello che facciamo, ogni giorno.

<sup>EN</sup> Fimet products are appreciated for their quality, innovation and design in more than 50 countries around the world. We are proud of our achievements. They motivate us to keep pushing the boundaries with our solutions and services, and to be at the top of our game in all that we do on a day-to-day basis.

# Eco packaging

<sup>IT</sup> Le confezioni Fimet sono realizzate con cartone 100% riciclabile e certificato FSC (Forest Stewardship Council): un'ulteriore dimostrazione del nostro impegno nei confronti della sostenibilità.

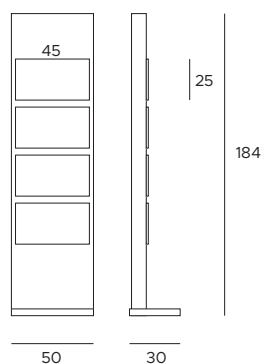

<sup>EN</sup> Fimet packaging is made from 100% recyclable FSC (Forest Stewardship Council) certified cardboard. This is further evidence of our ongoing commitment to sustainability.

# Metal base

**IT** Montaggio semplice e sicuro grazie all'innovativo centratore per il ferro quadro, con in più la garanzia della base in metallo, abbinabile sia alla copertina tonda che a quella quadrata. La base, dotata di fori per viti maschio / femmina con interasse 38 mm, è disponibile con bussole sporgenti oppure rasata. La copertina in metallo viene fornita montata sull'impugnatura tramite una molla testata per 200.000 aperture. Il tutto viene mantenuto in posizione dai grani di fissaggio presenti sulle impugnature.

**EN** An innovative square spindle adapter and a metal base that can be combined with both round and square covers, make installation easy and safe. The base is available with or without bulging sleeves and is drilled for 38-mm screw hole spacing male/female screws.

A spring tested to open 200,000 times secures the metal cover to the handle. Grub screws on the handles hold everything in place.

# Plastic base

**IT** Basta un “clic” e la base in plastica si incastra a pressione sulla rosetta, restando stabilmente in posizione grazie ai grani di fissaggio sulle impugnature e alla molla garantita per 200.000 aperture. Disponibile in versione tonda o quadrata, è dotata di fori per viti maschio / femmina con interasse 38 mm. L'assemblaggio è reso ancora più facile dallo speciale centratore per il ferro quadro.

**EN** The plastic base snaps onto the cover with a single ‘click’. It is held firmly in place by the grub screws on the handles and the spring, which is guaranteed to open 200,000 times. It is available in a round or square version and is drilled for 38-mm screw hole spacing male/female screws. The special square spindle adapter makes installation even easier.

# Finishes

<sup>IT</sup> Tutti i prodotti Fimet possono essere rifiniti nel reparto di verniciatura interno, in una gamma completa di tonalità, oppure sottoposti a un trattamento di cromatura o bronzatura, effettuato da esperti laboratori artigiani, per rispondere a ogni esigenza stilistica e gusto estetico.

<sup>EN</sup> All Fimet products are finished in a full range of colours in our own paint shop, or can also be chrome-plated or bronze-plated in specialist workshops to suit any style and aesthetic requirement.

# Secret

**Un sistema  
di chiusura  
rivoluzionario  
per l'interior  
design.**

**A revolutionary  
closing system  
for the world of  
interior design.**

# Minimale, funzionale, semplice.

Minimal,  
functional,  
simple.

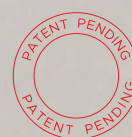

<sup>IT</sup> Silenziosità e fluidità di movimento sono le caratteristiche principali di Secret. L'assenza di una maniglia dall'impugnatura classica esalta il design.

Secret è una reale esperienza tattile, ma anche innovazione. Un concetto in attesa di essere scoperto: il sistema di comando di chiusura è invisibile, totalmente integrato nel design. Less is more.

<sup>EN</sup> Silence and fluidity of movement are the main features of Secret. The absence of a classic handle boosts the design.

Secret is a real tactile experience and innovation. A concept waiting to be discovered: the closing control system is invisible, totally integrated into the design. Less is more.

<sup>IT</sup> Dispositivo magnetico. Sistema brevettato di chiusura con dispositivo magnetico regolabile senza contatto e con riferma meccanica azionata dal sistema invisibile.

<sup>EN</sup> Magnetic device. Patented contactless magnetic locking system with adjustable strength and deadbolt operated by the concealed system.

ART. TONDO/ROUND: 230 - 230R - 231 - 232 - 236 - 273MA - ART. QUADRO/SQUARE: 201 - 211B - 215 - 264

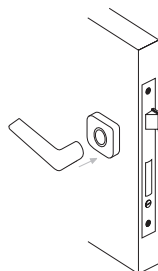

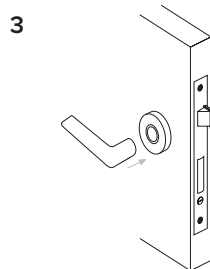

Inserire il ferro quadro nella serratura, rivolgendo la fresata o il foro verso la posizione del foro grano presente sulla maniglia.

Insert the square spindle into the lock. The square spindle's milling or the hole has to be pointed to the handle's grub screw hole.

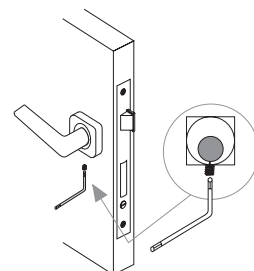

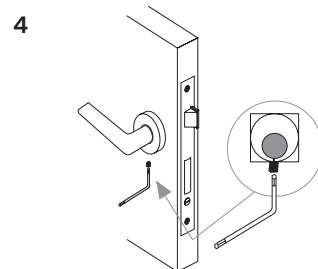

Posizionare la sotto-rosetta (provvista di molla incorporata) in asse con il ferro quadro, fissare con le viti in dotazione. Dopodiché, posizionare la copertina a pressione sulla sotto-rosetta.

Position the built-in spring under-rose aligned with the square spindle, then fasten with the screws. Clip the cover rose on the under-rose.

Posizionare la maniglia.

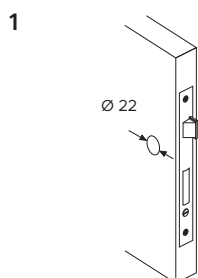

Position the handle.

Avvitare il grano della maniglia nell'apposito foro finché non si blocca.

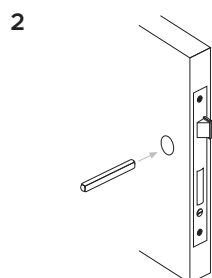

Fasten the grub screw in the handle's designated hole, until it stops.

ART. TONDO/ROUND: 241 - 244 - ART. QUADRO/SQUARE: 243

Eseguire un foro di 22 mm di diametro nella porta.

Drill a 22 mm diameter hole into the door.

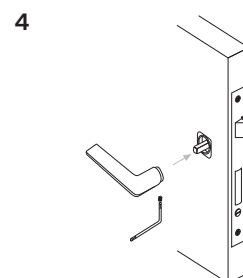

Inserire il ferro quadro nella serratura, rivolgendo la fresata o il foro verso la posizione del foro grano presente sulla maniglia.

Insert the square spindle into the lock. The square spindle's milling or the hole has to be pointed to the handle's grub screw hole.

Apporre una piccola quantità di colla sul diametro esterno della rosetta (sulla parte che andrà inserita nella porta) ed inserirla nel foro sulla porta.

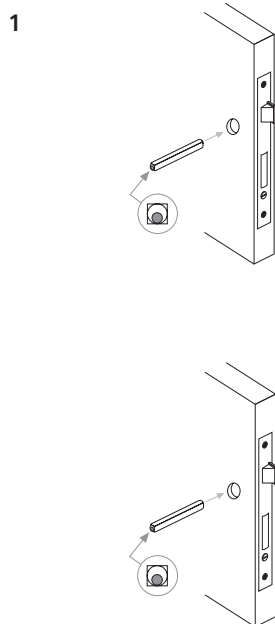

Put a small quantity of glue on the rose's outer diameter (on the part that will be inserted in the door). Insert the rose in the door.

Posizionare la maniglia, e fissarla sul ferro quadro avvitando l'apposito grano finché questo non si blocca.

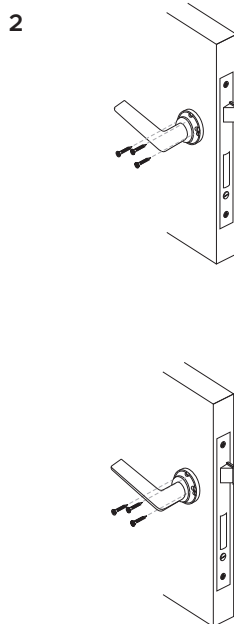

Position the handle, then fasten the grub screw in the handle's designated hole, until it stops.

## ART. TONDO/ROUND: 231BS - 231BT - 231C - 250F - 258 - 261 - 265 - 266 - 269 - ART. QUADRO/SQUARE: 211BIC

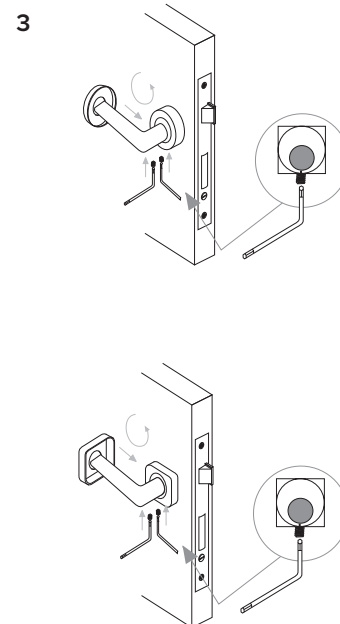

Inserire il ferro quadro nella serratura, rivolgendo la fresata o il foro verso la posizione del foro grano presente sulla maniglia.

Insert the square spindle into the lock. The square spindle's milling or the hole has to be pointed to the handle's grub screw hole.

Posizionare la maniglia montata sulla rosetta interna in metallo e fissare con le viti in dotazione.

The handle, mounted on the inner metal rose, must be positioned on the door, and fastened with the screws.

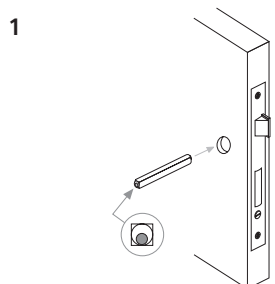

Posizionare l'anello quadrato sulla rosetta interna, facendo particolare attenzione a mantenere la posizione in asse e il foro grano nella parte inferiore.

Fissare l'anello con il grano finché non si blocca. Avvitare il grano nell'apposito foro della maniglia finché non si blocca.

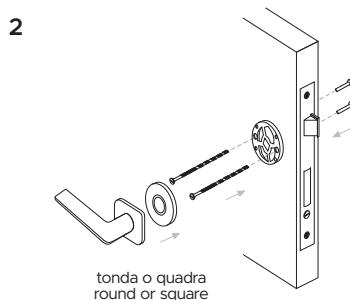

Position the square ring on the inner rose. Position has to be aligned and ring's grub screw hole has to stay in the lower part. Fasten the ring's grub screw until it stops. Fasten the grub screw in the handle's designated hole, until it stops.

## ART. TONDO/ROUND: 208 - ART. QUADRO/SQUARE: 213

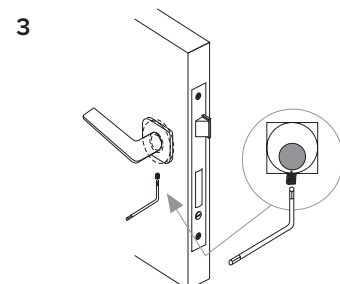

Inserire il ferro quadro nella serratura, rivolgendo la fresata o il foro verso la posizione del foro grano presente sulla maniglia.

Insert the square spindle into the lock. The square spindle's milling or the hole has to be pointed to the handle's grub screw hole.

Posizionare la sottorosetta in metallo e fissarla con le viti in dotazione.

Position the metal under-rose aligned with the square spindle, then fasten with the screws.

Posizionare la maniglia montata sulla copertina sulla sottorosetta e avvitare il grano nell'apposito foro della maniglia finché non si blocca.

Position the handle mounted on the rose cover on the metal under-rose and fasten the grub screw in the handle's designated hole, until it stops.

# Classe 3

## Class 3

IT La certificazione DIN EN 1906 è una regolamentazione internazionale ed europea per maniglie e pomoli per porte su rosette o placche. La norma DIN EN 1906 stabilisce quattro categorie d'uso in base alla frequenza e alle altre condizioni di utilizzo definite come segue CLASSE 3: alta frequenza di utilizzo, da enti pubblici o persone senza alcuna cura, ad alto rischio di abuso. Per esempio: porte nelle aree pubbliche ed edifici pubblici. Per ottenere questa certificazione, le nostre maniglie sono state sottoposte a vari test che simulano le varie sollecitazioni alle quali sono normalmente esposte nella vita di tutti i giorni. Le nostre maniglie sono state certificate dall'istituto Ift di Rosenheim.

EN The certificates DIN EN 1906 is an International and European standard for door handles and knobs for doors on backplates or roses. The DIN EN 1906 states four categories of use according to the frequency and other conditions of use as follows CLASS 3: high usage frequency, by public or persons with no care, high risk of misuse. For example: doors in public areas and public buildings. To obtain this certificates, our handles have been submitted to various test simulating the different stresses to which they are normally exposed to in everyday's life. Our handles have been certified by the Ift Rosenheim Institute.

# Antifuoco

## Fire rated

IT La maniglia per porte tagliafuoco deve garantire l'apertura della porta durante e dopo un incendio. Pertanto, il funzionamento della maniglia e dei suoi componenti viene garantito con il massimo rigore.

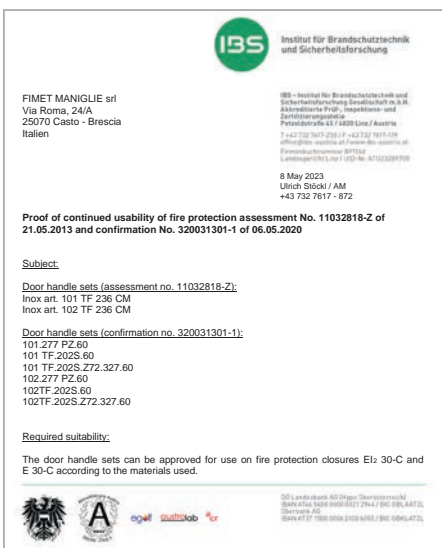

### CARATTERISTICHE:

- Testata per funzionare oltre 200.000 cicli di apertura

## Condizioni di vendita

Tutte le vendite vengono effettuate alle condizioni generali della ditta venditrice e potranno essere modificate solo con atto scritto della medesima.

Tutte le vendite si intendono fatte “salvo approvazione della ditta”.

I prezzi si intendono franco ns. stabilimento. I prezzi sono sempre da intendersi al netto delle vigenti impostazioni fiscali.

La merce viaggia a rischio e pericolo del committente anche se la spedizione avviene in porto franco

Non verrà accettata merce in restituzione se non previo benestare della ditta venditrice.

La ditta garantisce la ottima qualità dei prodotti e si impegna a sostituire solo il materiale che risultasse difettoso per carenza di costruzione. È però espressamente escluso il risarcimento di ogni eventuale danno.

È nostra cura effettuare le consegne con la massima velocità consentitaci. Non vengono accettate richieste di risarcimento per ritardi di consegna.

Qualsiasi reclamo sarà valido solamente se viene fatto per iscritto entro il termine di 8 gg. dal ricevimento della merce. Il reclamo s'intenderà decaduto qualora il compratore abbia consumato la merce. In caso di reclamo giustificato forniremo, per la merce resaci allo stato originale, della merce corrispondente all'ordine.

Le illustrazioni e i dati tecnici riportati sui nostri cataloghi debbono essere considerati approssimativi potendo i modelli subire delle variazioni e modifiche senza obbligo di preavviso da parte della ditta.

Per ogni controversia che si venisse a creare tra le parti sarà competente l'autorità giudiziaria di Brescia.

## Terms of sale

All sales are made under the Seller's general terms conditions, and modifications may only be made upon written authorisation from the same.

All sales are intended as “subject to the company's approval”.

Prices are quoted ex works and after deduction of the relevant taxes.

All goods travel at the Buyer's risk even if despatched carriage free.

Returned goods will only be accepted upon the Seller's approval.

The manufacturer guarantees the quality of the products and undertakes to replace only goods found to have workmanship defects. Damages will not be refunded.

We will do our utmost to make deliveries as promptly as possible. Claims for delayed deliveries will not be accepted.

Claims will only be valid if made in writing within 8 days of receipt of the goods. Claims will not be valid if the buyer has used the goods. In the case of justified claims and goods returned in their original state, we will supply goods corresponding to the order.

The drawings and technical data shown in our catalogues are to be considered as approximate since the models are subject to variation or modification at any time without prior notice.

Any disputes between the parties will be put before the Court of Brescia.

<sup>IT</sup> I prodotti e il catalogo sono soggetti ad aggiornamenti. Le colorazioni e le raffigurazioni hanno valore indicativo e possono presentare leggere differenze dal prodotto originale in quanto riportate attraverso un procedimento di stampa. Eventuali differenze tra il prodotto finito e la sua presentazione non possono dar luogo ad alcun reclamo.

<sup>EN</sup> Catalogue and products are subject to improvements. Colors and pictures in the catalogue are not binding and may slightly differ if compared with the product since they are obtained by a printing process. Possible differences between ready-made product and its presentation cannot cause any complaint.
